1. NATURE OF OPERATIONS AND GOING CONCERN

Gen III Oil Corporation (formerly PNG Gold Corporation) (the "Company" or "Gen III Oil") is incorporated under the laws of British Columbia.

In 2014 and 2015, the Company entered into agreements with VeroLube Inc. and its subsidiary, VeroLube Bowden Plant Inc. (collectively, "VeroLube") to loan funds to VeroLube. These loans were not repaid and on April 4, 2016, the Company entered into a forbearance agreement (the "Forbearance Agreement") with VeroLube. Under the Forbearance Agreement, the Company agreed to forbear from exercising its rights and remedies under the loan documents until December 31, 2016, conditionally upon VeroLube assigning the patents for its ReGenTM technology to the Company. If VeroLube did not repay the loans by December 31, 2016, the Company would retain ownership of the patents and would be able to exercise any and all remedies and recourses which were available to it against VeroLube. On January 3, 2017, the Company announced that it had granted a limited 30-day extension to its Forbearance Agreement with VeroLube. The extension, from December 31, 2016 to January 30, 2017, was granted subject to certain conditions being met by VeroLube, including: the delivery to the Company of three originally executed copies of the patent license agreement, and delivery to the Company of such documents as it may require to effect absolute assignment of the patents, both as provided for in the Forbearance Agreement. All other terms and conditions of the Forbearance Agreement remained in full force and effect. On January 15, 2017, VeroLube assigned the patents for the ReGenTM technology to the Company. The Company currently owns the ReGenTM re-refining technology; and either has, or is in the process of, transferring ownership of the various ReGenTM patents to the Company.

On April 17, 2017, the Company submitted a change of business application to the TSX Venture Exchange to change its principal business activities to an industrial oil company. On May 11, 2017, the Company changed its name to Gen III Oil Corporation.

On March 31, 2017, the Company sold its wholly owned subsidiary, NMC Mining Corp, which indirectly held the Company's mineral interests in Papua New Guinea.

These consolidated financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assumes that the Company will continue its operations and will be able to realize its assets and discharge its liabilities in the normal course of operations for the foreseeable future. At March 31, 2017, the Company had a working capital of \$1,666,928, had not yet achieved profitable operations and expects to incur further losses in the development of its business. For the three months ended March 31, 2017, the Company reported a comprehensive loss of \$358,350 and as at March 31, 2017, had an accumulated deficit of \$72,915,365. The Company has not generated revenues from operations. The Company is dependent on equity financings to fund its operations. Based on its current plans, budgeted expenditures, and cash requirements, the Company has sufficient cash to finance its current plans for at least 12 months from March 31, 2017.

The Company's address is Suite 910 – 1050 West Pender Street, Vancouver, B.C. V6E 3S7, Canada.

2. BASIS OF PREPARATION

(a) Statement of Compliance

These unaudited consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34"), as issued by the International Accounting Standards Board ("IASB") effective for the Company's reporting period ending December 31, 2017. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the Company's consolidated financial statements for the year ended December 31, 2016, which were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB. The accounting policies applied are the same as those applied in the Company's most recent annual financial statements which are filed under the Company's profile on SEDAR at www.sedar.com. The results for interim periods are not necessarily indicative of results for the entire year. The preparation of these unaudited condensed consolidated interim financial statements in conformity with IAS 34 requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated interim financial statements and the reported amounts of expenses during the period. As a result, actual amounts may differ from those estimates.

These condensed consolidated interim financial statements for the three months ended March 31, 2017 were approved and authorized for issue by the Board of Directors on May 24, 2017.

(b) Principles of Consolidation

The condensed consolidated interim financial statements include the financial statements of the Company, and its wholly owned subsidiary, NMC Mining Corp, a corporation existing under the federal laws of Canada, which in turn wholly owns NMC Mining (Barbados) Corp. and Normanby Mining Corp., corporations existing under the laws of Barbados, Normanby Mining PNG Limited ("Normanby PNG"), a corporation existing under the laws of Papua New Guinea (collectively, the "Group"). The Company sold NMC Mining Corp on March 31, 2017.

(c) New accounting pronouncements

The Company is currently evaluating the following standards not yet in effect and has not yet determined the impact on its financial position and results of operations:

IFRS 15, Revenue from Contracts with Customers – On May 28, 2014, the IASB issued IFRS 15 that provides a single, principles based five-step model to be applied to all contracts with customers. Guidance is provided on topics such as the point in which revenue is recognized, accounting for variable consideration, costs of fulfilling and obtaining a contract and various related matters. New disclosures about revenue are also introduced. IFRS 15 is effective for annual periods beginning on or after January 1, 2018.

IFRS 9 Financial Instruments - In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments which reflects all phases of the financial instruments project and replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory.

2. BASIS OF PREPARATION (continued)

IFRS 16, Leases - On January 13, 2016, the IASB published a new standard, IFRS 16, Leases. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Under the new standard, a lessee recognizes a right-of-use asset and a lease liability. The right-of-use asset is treated similarly to other non-financial assets and depreciated accordingly. The liability accrues interest. This will typically produce a front-loaded expense profile (whereas operating leases under IAS 17 would typically have had straight-line expenses). The standard is effective for annual periods beginning after December 15, 2019 (i.e., calendar periods beginning on January 1, 2020), and interim periods thereafter. Early adoption is permitted.

To ensure that the Company's assets are carried at no more than their recoverable amount, which is the higher of the amount to be recovered through use of the asset (Value In Use – "VIU") and the amount to be recovered through sale of the asset (Fair Value Less Cost Of Disposal – "FVLCD"), the Company performed an impairment analysis in accordance with IFRS 6 and IAS 36. If an asset is carried at more than its recoverable amount, the asset is impaired and IAS 36 requires an entity to recognize an impairment loss. The recoverable amount of each asset was determined based on the FVLCD approach. Estimates of fair value were based on recent observable market transactions or replacement costs for items similar in nature and condition to those impaired.

As at September 30, 2016, the Company determined that there were indicators of impairment for its drilling equipment. The indicators of impairment resulted from the economic uncertainty in general and the downturn in the mining industry in particular, and the Company's decision to significantly reduce future exploration expenditures until the equity market for resource companies improves. As a result, the Company recorded an impairment loss of \$95,881 (2015 - \$595,097) on drilling equipment for the nine months ended September 30, 2016. On November 7, 2016, the Company sold its drilling equipment for net proceeds of \$229,935 and recorded a loss on sale of \$76,478.

The two year term of the Sehulea exploration license expired on January 5, 2016. In October 2015, the Company applied for a further two year renewal from January 5, 2016 of the Sehulea exploration license with an estimated exploration expenditure commitment totaling \$124,000. The two year term of the Normanby exploration license expired on April 24, 2016. In January 2016, the Company applied for a further two year renewal from April 24, 2016 of the Normanby exploration license with an estimated exploration expenditure commitment totaling \$179,000. The Company was informed by the Mineral Resources Authority of PNG ("MRA") on October 4, 2016 that both of its exploration license renewal applications were refused and will not be renewed. The refusal notice was signed by the PNG Minister for Mining on September 1, 2016. The Company has previously renewed the licenses without any issues. The Company completed a work program in November 2015 and earlier in 2016 its representative met with various parties in Papua New Guinea who indicated no issues with the license renewal process. The Company has pursued this matter to no avail. Currently, the only recourse is to pursue the ultimate successful bidder of the licenses, who had previously signed a non-disclosure agreement with the Company.

As a result of the refusal to renew the exploration licenses, the Company has lost its exploration rights and ownership of the mineral interests. As at September 30, 2016, the Company evaluated its mineral interests for impairment and wrote off the full amount of the carrying value of \$216,819. As the Company no longer has exploration rights and ownership of the mineral interests, the recoverable amount was determined to be \$nil.

5. RELATED PARTY TRANSACTIONS

Transactions with related parties are measured at the exchange amount established and agreed to by the related parties. Key Management personnel includes the Chief Executive Officer, the President, the Chief Financial Officer and the Directors. For the three months ended March 31, 2017 and 2016, salaries to Key Management amounted to \$216,100 and \$259,860, respectively. During the three months ended March 31, 2016, severance in the amount of \$57,000 was paid to the Company's former President.

For the three months ended March 31, 2017, salaries to Key Management included fees of \$32,500 (2016 - \$nil) that were paid to a company that is controlled by the Company's current President. For the three months ended March 31, 2017, professional fees included \$45,000 (2016 - \$nil) that was paid to a company that is controlled by a director.

5. RELATED PARTY TRANSACTIONS (continued)

On Feb 9, 2017, the Chief Executive Officer and a director purchased 1,300,000 and 250,000 units, respectively of the Company's second tranche of a non-brokered private placement (the "Offering"). The Offering consisted of the issuance of a total of 6,450,000 units (the "Units") at a price of \$0.10 per Unit for gross proceeds of \$645,000. Each Unit consists of one common share and one-half of one warrant ("Warrant") with each whole Warrant entitling the holder to acquire one common share at a price of \$0.30 per share until February 6, 2018.

In addition to the related party transactions noted above, the Company reimbursed all these related parties for out-of-pocket direct costs incurred on behalf of the Company. Such costs include travel, postage, courier charges, printing and telephone charges.

On July 7, 2014, the Company entered into an agreement with VeroLube to loan \$140,000 to VeroLube Bowden Plant Inc. On November 28, 2014, The Company and VeroLube entered into the VeroLube Loan for \$500,000 that included the previous \$140,000 loaned. The Company's Chief Executive Officer served as director of VeroLube Inc. until January 23, 2017.

On December 31, 2015, the Company performed an impairment assessment on the VeroLube Loan and the Investment in Verolube Inc. taking into consideration Verolube Inc.'s financial condition and the likelihood of Verolube Inc. repaying the Ioan. The Company determined that expected future cash flow from these two financial instruments was \$nil and consequently, the Company fully impaired the carrying value of the VeroLube Ioan (\$747,006) and Investment in Verolube Inc. (\$45,880) for the year ended December 31, 2015.

The following provides information on the outstanding amounts of the VeroLube Loan.

The VeroLube Loan was not repaid and on April 4, 2016, the Company entered into a forbearance agreement (the "Forbearance Agreement") with VeroLube. Under the Forbearance Agreement, the Company agreed to forbear from exercising its rights and remedies under the loan documents, conditionally upon VeroLube assigning the patents for its ReGenTM technology to the Company and issuing 305,875 common shares of VeroLube to the Company on or before May 31, 2016. If VeroLube did not fulfill those conditions, the Company was free to exercise its rights and remedies under the loan documents as it saw fit. The Forbearance Agreement provided that if VeroLube did fulfill those conditions, it was required to repay the loans on or before December 31, 2016. If VeroLube did repay the loans by that date, then the Company would reassign the Patents to VeroLube, and VeroLube would grant the Company a non-exclusive, perpetual license to use the ReGenTM technology worldwide. If VeroLube did not repay the loans by that date, the Company would retain ownership of the patents

and would be able to exercise any and all remedies and recourses which were available to it against VeroLube. VeroLube did not fulfilled these conditions.

On January 3, 2017, the Company announced that it had granted a limited 30-day extension to its Forbearance Agreement with VeroLube. The extension, from December 31, 2016 to January 30, 2017, was granted subject to certain conditions being met by VeroLube, including: the delivery to the Company of three originally executed copies of the patent license agreement, and delivery to the Company of such documents as it may require to effect absolute assignment of the patents, both as provided for in the Forbearance Agreement. All other terms and conditions of the Forbearance Agreement remained in full force and effect. On January 15, 2017, VeroLube assigned the patents for the ReGenTM technology to the Company.

On February 3, 2017, the Company issued a demand to VeroLube for repayment of all outstanding loan amounts and accrued and unpaid interest. The Company also provided notice to VeroLube that it was proceeding to enforce its security over the VeroLube patents and personal property. VeroLube failed to repay the outstanding loan amounts and the Company fully exercised its rights.

The Company currently owns the ReGenTM re-refining technology; and either has, or is in the process of, transferring ownership of the various ReGen patents to the Company.

Included in accounts payable and accrued liabilities as at March 31, 2017 is \$309,376 (December 31, 2016 - \$268,128) of accrued directors' fees, \$50,400 (December 31, 2016 - \$50,400) of accrued salaries payable to the current President and \$4,000 (December 31, 2016 - \$4,000) of accrued expense allowance payable to the Chief Executive Officer.
